

Ark St Alban's Academy

ENRICHMENT PROGRAMME

Autumn Term 2017

WHY SHOULD YOU TAKE PART IN ENRICHMENT ACTIVITIES?

Getting an apprenticeship, a place at university or a good job is not just about good academic grades. The world beyond school is becoming increasingly more competitive, and further education providers and employers are looking for more and more from their applicants.

Taking part in enrichment activities lets employers know more about you, your interests and your strengths. It can demonstrate skills and abilities beyond those you may use frequently in the classroom.

Some of the skills you may develop by taking part in enrichment activities are leadership, teamwork, communication, public speaking, performance skills, self-confidence, increased self-awareness, problem solving, resilience, determination and commitment.

Besides all that, enrichment activities are fun. St Albans Academy's aim is to provide a wide and varied range of enrichment activities to suit everyone. If there is something you would like to see on the enrichment timetable that isn't already there, let us know and we'll see what we can do.
