Ark

Statement of Intent

The Ark Board recognises that under the Health and Safety at Work Act 1974 it has a duty to ensure, so far as is reasonably practical, the safety, health and welfare of all persons affected by its activities. And accepts that it has a responsibility to take all reasonably practicable steps to secure the health and safety of pupils, staff and others using Ark premises or participating in Ark-sponsored activities.

It believes that the prevention of accidents, injury or loss is not only essential to the efficient operation of Ark but is also an essential aspect of facilitating the education of its pupils.

Ark aims to provide a safe and healthy working and learning environment for staff, pupils and visitors. In pursuit of this, we seek to ensure, so far as is reasonably practicable:

- The provision and maintenance of safe workplaces and safe systems of work.
- Clear definition of responsibilities of employees at all levels.
- Provision of appropriate information, instruction, training and supervision.
- Provision of effective systems of communication on all health and safety matters.
- Adequate opportunities for employee consultation on health and safety matters.
- Co-operation with other organisations in respect of health and safety.

The arrangements outlined in Ark's Health & Safety policy and the various other safety provisions made by Ark will not prevent accidents nor ensure safe and healthy working conditions on their own. Only the adoption of safe methods of work and good practice by every individual member of Ark can ensure everyone's personal health and safety.

Ark will take all reasonable steps to identify and reduce hazards to a minimum but all staff and pupils must appreciate that their own safety and that of others also depends on their individual conduct and vigilance. Health and safety standards will only be maintained with the co-operation of all staff, pupils and visitors to our schools.

We expect all staff to co-operate fully with this policy, and that procedures to ensure relevant health and safety issues are embedded within the curriculum at all levels where appropriate.

The effectiveness of the policy will be regularly monitored to ensure that health and safety arrangements are being implemented and that the responsible persons identified within the policy are carrying out their duties correctly.

The policy will be reviewed annually and revised where necessary.

Signed: **CEO, Ark**

Dated: **2017**

Next Revision due: September 2018

Note: This Statement of Intent should be displayed in staffrooms, on electronic filing systems and intranet, and in the main reception areas.

Part 2 – Ark Organisation

In order to achieve compliance with this policy, Ark and their Academy management teams will have additional responsibilities assigned to them as detailed in this part of the policy.

Obligations of the Ark Board

- To provide the Health and Safety leadership for the network and ensure that a clear written policy statement is created which promotes the correct attitude towards Health and Safety in staff, visitors and students.
- Responsibilities for health, safety and welfare are allocated to specific people and that these persons are informed of these responsibilities and have sufficient experience, knowledge and training to perform the tasks required of them.
- To ensure all relevant Board decisions reflect the Health and Safety intentions in the Statement of Intent
- To receive and consider a consolidated annual report on risk management issues, significant failures, outcomes of investigations (e.g. accidents, near misses), statistics and other health and safety issues
- To review the Ark Health and Safety Policy and performance annually

Obligations of Ark Central Team

- To provide Health and Safety leadership by way of defined policies and procedures as required to satisfy the requirements of the Management of Health & Safety regulations.
- Explain expectations and determine how the organisation and procedures will be delivered throughout the network.
- To ensure that all academies make appropriate financial provision to meet their statutory health and safety obligations
- To ensure all relevant network decisions reflect the Health and Safety intentions in the Statement of Intent
- To ensure that the necessary advice, resources and support are available to academy Principals/Headteacher including legislation updates.
- To arrange the regular review of the Health and Safety & Fire safety provisions across the network by way of independent audits and inspections to ensure performance is measured both proactively and reactively
- To receive termly summary reports from Principals/Headteacher on significant health and safety issues, outcomes of investigations (e.g. accidents, near misses), completed actions to resolve previous issues
- To present a consolidated network report annually to the Ark Board on health and safety statistics, risk management issues, any other significant health and safety issues together with an action plan for their resolution
- To present an annual review of the Health and Safety Policy to the Ark Board

Obligations of Academy Local Governing Body

While statutory responsibility does not pass to the Local Governing Body or any of its members, the Academy Local Governing Body performs a vital role in the monitoring of Health and Safety compliance and in challenging the Academy to ensure that best practice is followed.

The Local Governing Body will require the Principal to report on all measures being taken to ensure Health and Safety compliance within their Academy. (In some Academies a Link Governor may be appointed to maintain oversight of Health & Safety issues on behalf of the LGB).

The Local Governing Body will therefore carry out the following:

- Formally adopt the Ark Health and Safety Policy annually, following its approval by the Ark Board and signalling that adoption by issuing a local Statement of Intent
- Monitor how the organisation and procedures are implemented and delivered at the academy
- Ensure that all relevant LGB discussions and decisions reflect the Ark Board's Health and Safety intentions as articulated in the Policy.
- Receive the reports from the annual Fire Risk Assessment, the annual Health and Safety Inspection and if applicable the quarterly or 6-month Health and Safety Audit review¹.
- Receive reports from Principal of significant failures and outcomes of investigations (e.g. accidents, near misses), statistics and other health and safety issues.
- Be informed by the Principal, FRD (or equivalent) or member of the Health and Safety Committee of relevant Health and Safety risk management issues, significant failures, outcomes of investigations outside formal meetings as considered appropriate.

Obligations of the Principal in all Academies

In his/her capacity as the key person responsible for the effective management of Health and Safety, the Principal will ensure the effective implementation of this policy by ensuring:

- This Policy is communicated to all relevant persons.
- Appropriate information on significant risks is given to visitors and contractors
- Appropriate consultation arrangements are in place for staff and their representatives.
- All staff are provided with information, instruction and training on health and safety issues.
- Risk assessments of the premises and working practices are undertaken.
- Safe systems of work are in place as identified from risk assessments.
- Emergency procedures are in place.
- Machinery and equipment is inspected and tested to ensure it remains in a safe condition.
- Records are kept of all relevant Health and Safety activities e.g. assessments, inspections, accidents, training etc.
- Arrangements are in place to inspect the premises and monitor performance.

¹ This is dependent on the outcome of the annual Health & Safety Inspection and the risk rating awarded.

- Accidents are investigated and any remedial actions required are taken or requested.
- The activities of contractors are adequately monitored and controlled.
- A report to the Local Governing Body on the Health and Safety performance of the Academy is completed termly.
- A report to Ark Central on the health and safety performance of the Academy is completed annually (End of the Academic Year).

Obligations of the Teaching / Non-teaching staff holding posts / positions of special responsibility

This includes Assistant Principals, Academy FRD, Business Manager, Operations Manager, Premises / Site Manager, Catering Manager and Clerical Managers/Supervisor etc. They must:

- Apply the Health and Safety Policies to their own department or area of work and be directly responsible to the Principal for the application of the Health and Safety procedures and arrangements.
- Develop safe systems of work in accordance with the Networks policies which address the key risks in their areas of responsibility and the organisation and arrangements for managing those risks.
- Carry out regular Health and Safety risk assessments of the activities for which they are responsible.
- Ensure that all staff under their management are familiar with the Health and Safety procedures for their area of work.
- Resolve health, safety and welfare problems that members of staff refer to them, or refer to the Principal any problems to which they cannot achieve a satisfactory solution within the resources available to them.
- Carry out regular checks of their areas of responsibility to ensure that equipment, furniture and activities are safe and record these checks where required.
- Ensure, as far as is reasonably practicable, the provision of sufficient information, instruction, training and supervision to enable other employees and students to avoid hazards and contribute positively to their own Health and Safety.
- Ensure all accidents are investigated appropriately.
- Include Health and Safety in the annual report for the Principal

Special obligations of Class Teachers

Class teachers are expected to:

- Exercise effective supervision of their students and to know the procedures in respect of fire, first aid and other emergencies, and to carry them out.
- Teachers should not leave students unattended and must ensure that their actions do not lead to an insufficient child to adult ratio occurring in classrooms or other supervised areas at any time.
- Give clear oral and written Health and Safety instructions and warnings to students as often as necessary.
- Ensure the use of personal protective equipment and guards where necessary.

- Make recommendations to their line manager on Health and Safety equipment and on additions or necessary improvements to plant, tools, equipment or machinery.
- Integrate all relevant aspects of safety into the teaching process and, where necessary, give special lessons on Health and Safety in line with National Curriculum requirements for safety education.
- Ensure that no personal items of equipment (electrical or mechanical) or proprietary substances are brought into the Academy without authorisation.
- Regularly check their classrooms for potential hazards and report any observed to the site/premises team

Obligations of all Employees

Apart from any specific responsibilities which may have been delegated to them, all employees must:

- Act in the course of their employment with due care for the health, safety and wellbeing of themselves, pupils, other employees and other persons.
- Observe all instructions on Health and Safety issued by the Principal / Headteacher or any other person delegated to be responsible for a relevant aspect of health and safety.
- Act in accordance with any specific Health and Safety training received.
- Report all accidents and near misses in accordance with procedures identified in this Policy.
- Co-operate with other persons to enable them to carry out their Health and Safety responsibilities.
- Inform their Line Manager of all potential hazards to Health and Safety, in particular those which are of a serious or imminent danger.
- Inform their Line Manager of any shortcomings they identify in the local health and safety arrangements.
- Exercise good standards of housekeeping and cleanliness.
- Know and apply the procedures in respect of fire, first aid and other emergencies.
- All employees who authorise work to be undertaken or authorise the purchase of equipment will ensure that the Health and Safety implications of such work or purchases are considered.
- Acknowledge that they have read the Health and Safety Policy, have understood the contents and will do all that is reasonably practicable to comply with it.

Obligations of Contractors

- When the premises are used for purposes by way of a contract which are not under the direction of the Principal e.g. the provision of Academy meals, then the principal person in charge of the activities will have responsibility for safe practices in the areas under their control.
- All contractors who work on Academy premises are required to identify and control any risk arising from their activities and inform the Academy of any risks that may affect the staff, students and visitors.

- All contractors must be aware of the Academy Health and Safety policy and emergency procedures and comply with these at all times.
- All contractors must be aware of the Academy requirement for proof of DBS clearance as a precursor to site access.
- In instances where the contractor creates hazardous conditions and refuses to eliminate them or to take action to make them safe, the Principal or their representative will take such actions as are necessary to protect the safety of staff, students and visitors, including removing them from site.

Obligations of Students

Students, in accordance with their age and aptitude, are expected to:

- Exercise personal responsibility for the Health and Safety of themselves and others.
- Observe standards of dress consistent with safety and/or hygiene.
- Observe all the Health and Safety rules of the Academy and in particular the instructions of staff given in an emergency.

Academy Areas of Responsibility

The following schedule is an illustration of how the supervision and delivery of H&S responsibility are allocated in a typical Ark School.

Each Ark School should complete a schedule (using the template supplied in the Appendix) which reflects the delegated structure within their school and keep this record with the Health & Safety Policy.

Appendix 2: Template Academy Statement of Intent

The Principal and Local Governing Body of *Insert school name here* Academy believe that the management of health and safety within the school is of paramount importance. We intend to ensure that others who may be affected by our activities are not subjected to risks to their health and safety.

It is the intent of the Principal and governors of the school to take all reasonably practicable steps ensure that a safe and healthy workplace is provided and maintained for all our employees, pupils, visitors, parents, volunteers and contractors. This will include the provision of safe systems of work, safe plant and equipment and a safe access and egress to the premises.

By adopting the Ark Health and Safety Policy, its supporting documentation and arrangements for implementation and monitoring it will enable *Insert school name here* Academy to meet its legal obligations and contribute to our objectives relating to continuous improvement on Health and Safety performance.

We are committed to high standards of Health and Safety and we believe that these standards will be maintained only with the co-operation of all staff, pupils and visitors to the school. We expect all staff to co-operate fully with this policy and we will ensure that all pupils, visitors and contractors are provided with the information they require to enable them to comply with this policy.

The effectiveness of the policy adoption will be regularly monitored to ensure that all health and safety arrangements are being implemented and that the responsible persons identified in the policy are carrying out their roles correctly.

The adoption of the Ark policy will be reviewed annually.

The Ark policy was adopted and endorsed by the Board of Governors at their meeting on *(insert Date)*
